## ***1. Identification of the substance/mixture and of the company/undertaking***

### **1.1 Product identifier**

Trade name : VELVET ROSE  
IFF Code : 5661321  
SDS Number : 300000734125

### **1.2 Relevant identified uses of the substance or mixture and uses advised against**

Use of the Substance/Mixture : Fragrance for consumer product

### **1.3 Details of the supplier of the safety data sheet**

Company : IFF (NEDERLAND) BV  
ZEVENHEUVELENWEG 60  
5048 AN TILBURG  
Netherlands  
Telephone : +31134642211  
Telefax : +31134636032  
E-mail address : sds@iff.com  
Responsible/issuing person

### **1.4 Emergency telephone number**

Refer to section 16 for country specific emergency contact number.

## ***2. Hazards identification***

### **2.1 Classification of the substance or mixture**

#### **Classification (REGULATION (EC) No 1272/2008)**

|                                      |                                                        |
|--------------------------------------|--------------------------------------------------------|
| Skin irritation, Category 2          | H315: Causes skin irritation.                          |
| Eye irritation, Category 2           | H319: Causes serious eye irritation.                   |
| Skin sensitisation, Category 1       | H317: May cause an allergic skin reaction.             |
| Chronic aquatic toxicity, Category 2 | H411: Toxic to aquatic life with long lasting effects. |

### **2.2 Label elements**

#### **Labelling (REGULATION (EC) No 1272/2008)**

Hazard pictograms :

Signal word : Warning

Hazardous components which must be listed on the label:

- 68155-66-8, 54464-57-2, 68155-67-9, 54464-59-4 Tetramethyl Acetyloctahydronaphthalenes
- 118-58-1 BENZYL SALICYLATE
- 120-57-0 HELIOTROPINE
- 115-95-7 linalyl acetate
- 78-70-6, 126-91-0 Linalool
- 1205-17-0  $\alpha$ -methyl-1,3-benzodioxole-5-propionaldehyde
- 33704-61-9 Dihydro pentamethylindanone
- 1315251-11-6 5H-Cyclopenta[H]quinazoline, 6,7,8,9-tetrahydro-7,7,8,9,9-pentamethyl-
- 138-86-3, 5989-27-5, 5989-54-8 limonene
- 106-22-9, 7540-51-4 Citronellol
- 91-64-5 COUMARIN
- 103-95-7 CYCLAMEN ALDEHYDE
- 127-91-3 pin-2(10)-ene
- 23696-85-7 1-(2,6,6-trimethyl-1,3-cyclohexadien-1-yl)-2-buten-1-one

stopped breathing, give artificial respiration. Obtain medical advice.

In case of skin contact : Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.

In case of eye contact : Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.

If swallowed : Rinse mouth with water and obtain medical advice.

#### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms : No information available.

Risks : No information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : No information available.

### 5. Firefighting measures

#### 5.1 Extinguishing media

Suitable extinguishing media : Carbondioxide, dry chemical, foam.

Unsuitable extinguishing media : Do not use a direct waterjet on burning material.

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting : Water may be ineffective.

#### 5.3 Advice for firefighters

Further information : Standard procedure for chemical fires.

### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.

#### 6.2 Environmental precautions

Version : 1.0

Revision Date : 13.12.2018

Product VELVET ROSE

Print Date 13.12.2018

Page 7 (19)

Environmental precautions : Keep away from drains, surface- and groundwater and soil.

### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up : Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

### 6.4 Reference to other sections

Prevent spreading over a wide area (e.g. by containment or oil barriers).

## 7. Handling and storage

### 7.1 Precautions for safe handling

Advice on safe handling : Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.

If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees. Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air.

Advice on protection against fire and explosion : Keep away from ignition sources and naked flame.

### 7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers : Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.

### 7.3 Specific end use(s)

Specific use(s) : No information available.

Version : 1.0

## 8.2 Exposure controls

### Engineering measures

Where appropriate, use closed systems to transfer and process this material.  
If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

### Personal protective equipment

Respiratory protection : Use local exhaust ventilation around open tanks and other open

Page 11 (19)

sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures.

No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.

If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:

- a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or
- b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or
- c) if normal operational workplace vapor concentration in the air is increased due to heat ;
- d) during emergencies; or
- e) if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational exposure limit.

Hand protection : Avoid skin contact. Use chemically resistant gloves.

Eye protection : Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.

Hygiene measures : To the extent deemed appropriate, implement pre-placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to this material.  
To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air to determine potential exposures and to ensure the continuing effectiveness of engineering controls and operational practices to minimize exposure.

#### **Environmental exposure controls**

General advice : Keep away from drains, surface- and groundwater and soil.

with water. Avoid contact with strong acids, alkali or oxidizing agents.

#### 10.4 Conditions to avoid

Conditions to avoid : Direct sources of heat.

#### 10.5 Incompatible materials

Materials to avoid : Avoid contact with strong acids, alkali or oxidizing agents.

#### 10.6 Hazardous decomposition products

Hazardous decomposition products : Carbon monoxide and unidentified organic compounds may be formed during combustion.

### 11. Toxicological information

#### 11.1 Information on toxicological effects

##### Acute toxicity

Acute oral toxicity : Acute toxicity estimate: > 2.000 mg/kg  
Method: Calculation method

##### Skin corrosion/irritation

1-(1,2,3,4,5,6,7,8-Octahydro-2,3,8,8-tetramethyl-2-naphthyl)ethan-1-one : Species: human  
Result: Skin irritation  
Method: OECD 439

##### Serious eye damage/eye irritation

tetrahydro-2-isobutyl-4-methylpyran-4-ol, mixed isomers (cis and trans) : Species: Rabbit  
Result: Eye irritation

##### Respiratory or skin sensitisation

1-(1,2,3,4,5,6,7,8-Octahydro-2,3,8,8-tetramethyl-2-naphthyl)ethan-1-one : LLNA  
Species: Mouse  
Result: Causes sensitisation.  
Method: OECD 429

##### Germ cell mutagenicity

**Aspiration hazard**

No test data available. Ingredients with an aspiration hazard are identified in section 3.

## 12. Ecological information

### 12.1 Toxicity

Toxicity to fish

1,3,4,6,7,8-hexahydro- : LC50: 0,452 mg/l  
4,6,6,7,8,8- Exposure time: 21 d  
hexamethylindeno[5,6-c]pyran  
Species: Lepomis macrochirus (Bluegill sunfish)  
Method: OECD Test Guideline 204

Toxicity to daphnia and other aquatic invertebrates

1,3,4,6,7,8-hexahydro- : EC50: 0,9 mg/l  
4,6,6,7,8,8- Exposure time: 48 h  
hexamethylindeno[5,6-c]pyran  
Species: Daphnia magna (Water flea)  
Method: OECD Test Guideline 202

Toxicity to algae

1,3,4,6,7,8-hexahydro- : ErC50: > 0,854 mg/l  
4,6,6,7,8,8- Exposure time: 72 h  
hexamethylindeno[5,6-c]pyran  
Species: Pseudokirchneriella subcapitata (green algae)  
Method: OECD Test Guideline 201

EbC50: 0,723 mg/l  
Exposure time: 72 h  
Species: Pseudokirchneriella subcapitata (green algae)  
Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity)

1,3,4,6,7,8-hexahydro- : NOEC: 0,068 mg/l  
4,6,6,7,8,8- Exposure time: 36 d  
hexamethylindeno[5,6-c]pyran Species: Pimephales promelas (fathead minnow)  
Method: OECD 210

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)

1,3,4,6,7,8-hexahydro- : NOEC: 0,111 mg/l  
4,6,6,7,8,8- Exposure time: 21 d  
hexamethylindeno[5,6-c]pyran Species: Daphnia magna (Water flea)  
Method: OECD 211

## 12.2 Persistence and degradability

Biodegradability

1,3,4,6,7,8-hexahydro- : Result: Not readily biodegradable.  
4,6,6,7,8,8- 2 %  
hexamethylindeno[5,6-c]pyran Method: Modified Sturm Test

## 12.3 Bioaccumulative potential

Bioaccumulation

1,3,4,6,7,8-hexahydro- : Species: Lepomis macrochirus (Bluegill sunfish)  
4,6,6,7,8,8- Exposure time: 28 d  
hexamethylindeno[5,6-c]pyran Bioconcentration factor (BCF): 1.584  
Method: OECD 305

## 12.4 Mobility in soil

Mobility : No data available

Distribution among environmental compartments

### 12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### 12.6 Other adverse effects

Additional ecological : There is no data available for this product.  
 information

## 13. Disposal considerations

### 13.1 Waste treatment methods

Product : Dispose of according to local regulations. Avoid disposing into drainage systems and into the environment.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport information

### ADR

UN number : 3082  
 Description of the goods : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.  
 (Octahydro Tetramethyl Naphthalenyl Ethanone)

## 15. Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Water contaminating class : WGK 3 highly water endangering  
 (Germany)

### 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance.

## 16. Other information

### Full text of H-Statements referred to under sections 2 and 3.

|      |                                                                    |
|------|--------------------------------------------------------------------|
| H226 | Flammable liquid and vapour.                                       |
| H302 | Harmful if swallowed.                                              |
| H304 | May be fatal if swallowed and enters airways.                      |
| H315 | Causes skin irritation.                                            |
| H317 | May cause an allergic skin reaction.                               |
| H319 | Causes serious eye irritation.                                     |
| H361 | Suspected of damaging fertility or the unborn child.               |
| H373 | May cause damage to organs through prolonged or repeated exposure. |
| H400 | Very toxic to aquatic life.                                        |
| H410 | Very toxic to aquatic life with long lasting effects.              |
| H411 | Toxic to aquatic life with long lasting effects.                   |
| H412 | Harmful to aquatic life with long lasting effects.                 |

### Further information

In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110]. In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace". Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in

the workplace and you are strongly urged to review both of these reports.

The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration  $\geq 1.0\%$  due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

According to Regulation (EC) No. 1907/2006 the information in this safety data sheet is based on the properties of the material known to IFF at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment International Flavors & Fragrances holds no responsibility. This document is not intended for quality assurance purposes.
